

EBC • STREET

EBC Manufactures HPSR low carbon steel rotors for street bikes in Pro-lite Full Floating as well as conventional solid rotors, depending on application. Special Racing Rotors are also available for most late model Sport/Race bikes, call for applications! All floating rotors are made with lightweight forged aluminum

carriers and high-friction drilled billet steel rotor rings.

EBC offers several ranges of pad material for Street/Sport/Race bikes:

FA-Black: Organic/Kevlar with low rotor wear and outstanding value

RFA-Green: Sprint compound, with additional stopping power

FA_HH-Gold: U.S.A. made, highest friction rating, longest wearing sintered material

GFA_HH: SB107 compound race pads, not for street use

Standard FA pads are shown below in the 'GOOD' column, while HH are shown in the 'BEST' column where available. Specify RFA for green compound, while GFA HH SB107 pads must be pre-approved by EBC's race department before ordering.
