CLUTCHES

CLUTCH KITS FOR STREET, DIRT & ATV

STREET - 2 choices

1. Standard - CK Series

The CK Series cork based clutch plates are an upgrade replacement for OEM applications. The kit includes a full set of friction plates only.

- **Impregnated with Aluminum Particles** - Increase wear life and heat resistance.
- **Highly Compressed Material** - Helps prevent swell and clutch drag.
- **Ideal general purpose replacement** for all grades and sizes of motorcycles.

2. Race/Sport - SRC Kevlar Series

A Kevlar paper lined plate set complete with heavy duty clutch springs designed for *faster riders* and production based race use.

- **Kevlar Material** - Provides longer life and higher heat resistance.
- **More aggressive/faster take up.**
- **Ideal for large displacement sport bikes!**

DIRT/ATV - 3 choices

1. Standard - CK Series

An all purpose upgrade replacement with all the technological advantages of the Cork based CK street series.

2. Race/Sport DRC Series

EBC's number one selling clutch for motocross sport use, the DRC kit includes heavy duty aluminum impregnated cork based plates, 10% firmer clutch springs and steel intermediate driven plates. The steel intermediate plates outlast stock alloy units and prevent muddying of the oil, maintaining stack height longer and with slightly heavier weight give an improved fly wheel effect on smaller engines. The CK series plates within the DRC set include the new "wide ear" construction lined plates which prevent "dogging" of the clutch basket, see sketch above.

3. Race - DRC 'EP' Kevlar Series

The EP kit is lined with Kevlar impregnated facings, and incorporates an extra drive and driven plate in the set for increased friction area.

- **Almost total resistance** to burning and clutch abuse.
- **Virtually unlimited wear life.**
- **Faster uptake** on release than the DRC.
- **Includes Steel Driven Plates & Heavy Duty Springs**

CSK Clutch Spring Sets

Due to damage from prolonged exposure to heat and wear, it is always recommended to install new springs. EBC springs are OEM upgrades, 10% stiffer than stock.

Installation Notes

Consumer Advisory

- Advise consumers that lever will feel slightly "heavier" after spring upgrade.
- Recommend consumer test rides vehicle to acquaint themselves with change in control.
- Clutch springs are sold in sets.
- Diaphragm type clutch springs are not available.

EBC 'EP' KITS
The **STRONGEST**
Off-Road Clutches
money can buy!
With **KEVLAR!**
