ELECTRICAL

MRC-11X

Extended range bike-to-bike radio communicator with full duplex driver/passenger intercom.

- Operates with high power on uncluttered UHF, FRS, GMRS, & shared FRS/GMRS frequencies (22 channels total/ 462- 467Mhz)
- Nady Super VOX hands free voice activated, also comes with optional handle bar mount push-to-talk (PTT)
- Special noise reduction circuitry, and noise-canceling/wind-blocking headsets provide quieter operation and maximum clarity
- Auxiliary input provides access for external music sources such as MP3 & CD Players
- Ultra-compact, lightweight, durable designs also allows unit to be used as a conventional handheld radio.
- Each unit comes stock with one MHS-11XO headset kit (Open face headset w/ PTT harness)

Note: Optional second headset available if unit is to be used for driver/passenger communications.

MHS-11XO & MHS-11XC HEADSET KIT

- Premium Helmet Mount Headset with Microphone for use with Nady MRC-11 Communicators
- Works for Driver or Passenger, quick and easy installation & requires no helmet modification
- Available in Open-Face & Full Face versions
