

POWER FLOW KITS

FILTERS

POWER FLOW KITS MX/OFF-ROAD

- Power Flow kits come with a rigid, light weight, **billet aluminum cage** that provides a tight seal to the air box and replaces your flimsy plastic stock cage.
- 4-stroke kit replaces your air-restricting stock back fire screen with a special back fire-resistant layer of foam laminated to the inside of the filter.
- Custom designed dual stage filter provides leak proof fit.
- Kit also includes free dust cover (!) and mounting hardware.

ATV POWER FLOW KITS

- New generation Power Flow kit converts the filter mounting system from a clamp-on filter to a filter cage and wing bolt mounting system.
- These kits eliminate leaks and provide more air flow for increased power, but the filter can still be removed in a snap for cleaning.
- New flange system allows for the use of an air box cover for washing the inside air box.
