

HANDLEBARS & GRIPS

VORTEX

New for 2008!

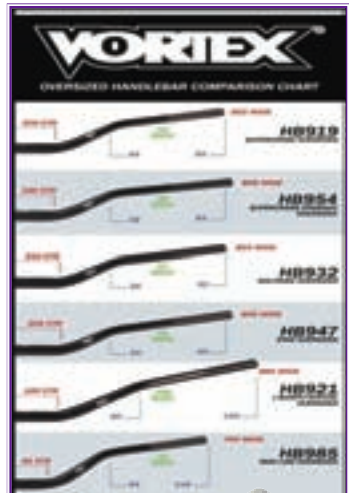

7/8 The new Vortex 7/8th handlebar features a new forged clamp, all new bends, ultrapolished throttle end, and a super-snug bar pad with inverted design.

OS Check out the newest bends for the our oversized bars including the Star Oversized, Solitaire Oversized, and the J Murph Special for Flat Track.

- Universal wall thickness for superior strength
- Wide range of bends available
- Race ready, complete with bar pad
- Professionally tested and used by top riders

Most bends are available in Black or Silver

When Vortex decided to manufacture MX Bars, strength was a key issue. So, not only was the highest grade of aluminum used, but on the 7/8 bar we created a unique clamp that has proven to be incredibly durable though light weight. On the 1 1/8" bar we employ a manufacturing method that keeps the wall thickness consistent through out the entire bar, unlike our competitors who go with a cheaper method of manufacturing that results in a thinner wall as it tapers towards the ends.

Whether you use the 7/8 or the Oversized bar, Vortex has all the bends you desire. The shotpeened aluminum bars are available in black or silver and all come with a black Vortex bar pad. Red bar pads are also available. Both sizes of bars come with knurling, degree markings, and are made of the highest quality 2014 T6 Aluminum for the 7/8 bar and 7075 T6 Aluminum for the 1 1/8" bar. All Vortex bars are shotpeened to increase strength and minimize fatigue. Bar ends are counter bored to accept hand guard inserts.
