

MODULAR CARRIER SETS

Excel G2 lightweight 7175-T3 forged aluminum carrier rings are the key components of the Pro Series System. The carrier rings hold OE & aftermarket brake rotors & drive sprockets in their OE position, but their modular design allows a single set of Excel universal wheels to be adapted to a wide variety of motorcycles.

- New G2 carriers feature an interlocking groove that mates with G2 hub for increased strength
- Adapt any Excel Universal Wheelset to a specific motorcycle model
- Lightweight Forged 7175-T3 Aluminum is 30% stronger than stock
- Available in Silver or Black finish
